

ConfigManager::ConfigManager

```
graph LR; A[ConfigManager::ConfigManager] --> B[ConfigManager::initialize Config];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'ConfigManager::ConfigManager'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'ConfigManager::initialize' on the top line and 'Config' on the bottom line.
